A Rod for England—A Day of Reckoning Coming—Secret Irish Naval Expedition.

From the New York Sun.

There is nothing particularly remarkable about house 323 West Twenty-first street, in this city, but a remarkable expedition is being there organized. Our reporter visited the place yesterday, and was courteously received by Mr. Wm. J. O'Connell, a prominent member of the Fenian organization. The following conversation ensued:

Reporter (handing Mr. O'Connell a copy of the morning *Sun*—I find in the *Sun* to-day an advertisement calling on all earnest Irish Nationalists and all other Irishmen of action to join an Irish naval expeditionary corps, now organizing. Can you give me any information concerning this corps?

Mr O'Connell—Well—well—I don't know about that. Are you an Irishman?

Sun Reporter—"I was born in Kinnaley, county Clare, of Irish Catholic parents, and am Irish from the sole of my foot to the crown of—"

Mr O'Connell—"But, sir, you don't look like an Irishman."

Reporter—'I have lived in America for the past twenty-seven years. If such an expedition is being formed, I would be much obliged if you would give me a few particulars.'

Mr O'Connell—'Have you ever been at sea?'

Reporter—'I came from Liverpool to New York when I was a small boy.'

Mr O'Connell—'What we particularly want are Irishmen of nautical experience—men of nerve, and of a generous daring Irish disposition. We could enlist 100,000 landsmen in a month, and have already enlisted hundreds. But this expedition is to be composed entirely of picked men. What is your business?'

Reporter—'I am a reporter for The *Sun*, which, by the way, shines for all.'

Mr OConnell—You must excuse me, sir, if I refuse to give you any information concerning this expedition. It is of the utmost importance that our operations should be, so far as possible, kept secret. I feel under obligations to the *Sun* for its aid to struggling Ireland, but it would be out of place for me to give you any information concerning our plans or movements. Before eight months are over you will hear a good account from us, I assure you. Innocent blood, shed by Englishmen, will be avenged, and it will take more than one issue of the *Sun* to give the details of our expedition. Good day, sir.'

The following is the advertisement as it appeared in the *Sun*:

'To Earnest Irish Nationalists.—All Irishmen of action, desirous of taking part in the Irish Naval Expeditionary Corps, now organizing, are requested to communicate at once with Wm. J. O'Connell, Secretary, 323 West 21st st., City. Men of nautical experience are particularly called on.

'The door being closed at No. 323, information was sought elsewhere. The air of our city had again been disturbed with expeditionary rumors. Since the sailing of the 'Cuban Army of Liberation,' nothing has been heard from it. The corps of Greeks for the relief of Crete had on their roll one General Commanding, one commissary, one sutler, and one orderly. No recruits volunteering, the squad was paid off and mustered out.

But we have an expedition on foot now which has been inspired by the thunder of G. F. Train's guns, and which is to make things hot for Britannia when she least expects it. Determined Irishmen are organizing a band of experienced soldiers and sailors for a long and daring naval cruise. The list is nearly complete, and the persons are unknown even to Marshal Murray's deputies. The movers are true Fenians, and have no idea of sleeping while any of their countrymen are immured in British prisons. Their precise object they decline to state, but hint indirectly that a good fleet vessel with a heavily armed crew and a marine corps could make a sensation on the coast of Australia, or a West India Island. Like Paul Jones, they might land on the sands of the West Indies, make a raid into the interior, and carry off the plate of some English mogul.

It is known that there are Irish prisoners in remote British colonies, and their liberation would be but a slight retaliation for the sufferings endured by Train and his companions in the Dublin bastile.

We have certain information of this bold project, and have confidence that Irish blood will carry it through.

Holloway's Ointment and Pills.—Much watchfulness must be exercised as winter advances and the earliest evidences of ill health must be immediately checked and removed or a slight illness may result in a serious malady. Relaxed and sore throat, diptheria, quinsey, throat cough, chronic cough bronchitis and most other pulmonary affections will be relived by rubbing this cooling Ointment into the skin as near as practicable to the seat of mischief. This treatment so simple and effective is admirably adapted for the removal of these diseases during infancy and youth. Old asthmatic invalids will derive marvellous relief from the use of Holloway's remedies, which have brought round many such sufferers, and re-established health after every other means had signally failed. 39

Evidence from the Land of Gold!

"My scald head, or tetter, about which I wrote you before, is all gone. Five bottles of Bristol's Sarsaparilla cured me."—E. Forbes, *San Jose.*

"Your Bristol's Sarsaparilla and Pills have cured me of Salt Rheum that I had suffered with for seven years."—R. Johnson, *Mariposa.*

"I really believe that Bristol's Sarsaparilla and Pills have been the means of saving my life."—T. J. Edwards, *Stockton.* 571*

Fever and Ague, Chills and Fever,

And every other form of intermittent or remittent fever, are speedily controlled, relieved, and cured by the use of Bristol's Sugar-coated Pills and Bristol's Sarsaparilla. These two remedies act directly upon the stomach, liver, blood, and humors, and if patients will only follow the directions printed on the label and wrapper, a quick recovery to health will be their reward. 572

Everlasting Perfume!

Murray & Lanman's Florida Water has often been styled the "Everlasting Perfume" It is indeed true that its delightful and refreshing fragrance lingers for many days around whatever it touches—unlike the ordinary perfumes, that leave no trace of their momentary existence save the sickly, heavy odor of rancid oils.

☞ As there are worthless counterfeits of this delicious perfume buyers should always ask for the Florida Water prepared by Lanman & Kemp, New York. 947.

Well to-day, Sick to-morrow.

Such is the experience of thousands. Few enjoy continuous health. To what does the occasional invalid attribute his uncertain condition? Not to himself, of course. He lays the blame on the climate, perhaps. It is too hot or too cold, or too damp, or too dry, or too variable. But does he take the proper course to fortify his constitution and bodily organs against the extremes and changes of which he complains? No. he says, perhaps, that only an iron man could bear such great heat or such violent cold or such sudden vicissitudes. Why then does he not resort to the great Tonic and Preventive which if it will not make him an iron man will at least quadruple the capacity of his system to repel all external agencies that tend to produce disease? HOSTETTER'S CELEBRATED STOMACH BITTERS, taken faithfully according to the directions, will so strengthen the stomach brace the nerves, tone the liver and regulate and invigorate the whole animal machinery, that the system instead of being at the mercy of the weather and liable to be prostrated by every change of temperature will become case-hardened as it were and almost impervious to climatic influences. It is to this preventive principle that Hostetter's Bitters owe their great popularity in the West Indies, British America and Australia. 19.

HOSTETTER'S
CELEBRATED
STOMACH BITTERS!
A PURE AND POWERFUL TONIC
CORRECTIVE AND ALTERATIVE
Of Wonderful Efficacy in Diseases
OF THE
STOMACH, LIVER AND BOWELS,
PROTECTIVE PROPERTIES.
Prevents Fever and Ague and Bilious Remittent Fever
Fortifies the System against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels,
Steadies the Nerves and Tends to Prolo Life.
REMEDIAL PROPERTIES.
Cures Dyspepsia, Liver Complaint, Sick and Nervou Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps, and Spasms, and all complaints of either sex arising from Bodily Weaknesses, whether inherent in the system or
PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

In districts infested with Fever and Ague, it has been found infallible as a preventive and irresistible as a remedy. Thousands who resort to it if under apprehension of an attack, escape the scourge; and thousand who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of thi marvelous medicine.

Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieve the Constipation superinduced by irregular action of the digestive and secretive organs.

THE BRITISH COLONIST.

Thursday Morning, April 8, 1869.

THE defense usually set up for the present Government is, that it does no harm; that other Governments are corrupt and tax the people unjustly, thus inflicting injury willfully, a grievous evil with which our Government cannot be impeached. That may be quite true; but in the relations of parent and child it is commonly noted that where the parent exercises an evil influence the energies of the child for good or evil are completely developed, and the chances are at least equal that the child may turn out a good member of society; but in the case of a negligent and slothful parent, vice and corruption are the sure results. Thus with our present Government: we are slowly sailing on to destruction from sheer want of guidance, whereas did we possess a man at the head of affairs who was mindful of even his own interests, he would certainly turn our prow in the other direction. But why should we submit to either of these evils? We are surely intelligent enough to know the kind of Executive best suited to our taste and condition. We pay our public servants and certainly are entitled to the right of discharging them if they don't suit us. No code of philosophy exists that compels a people to select any one man or set of men to govern them, simply because some other men say it is proper. The wave of democracy has swept too widely over the world to admit of even this place having escaped its influence. In these days of telegraphs and steamboats, men have to work too hard for a livelihood to bother their heads with mere forms; they want good practical results, and public servants who, when well paid, will attend to the duties for which they are appointed. These can and must be obtained. The people of this Colony are quite prepared to pay remunerative salaries to gentlemen capable of performing the duties required, and we all know such gentlemen are to be had; they may be found in any part of the world. The days of sinecures are past; the halo that surrounded certain select families has been blown off by the breath of public opinion. The value of a man is now discovered in his energy and usefulness. We have reason to be proud of this beautiful country, flowing as it is with milk and honey, rich in everything that could gladden the heart of man. But what avails all our wealth? We might as well be living in some enchanted isle where everything was spell-bound. Granted we have all that heart can desire; but Government holds the rod that enchains all our efforts. Our farms are productive and our flocks and herds multiply; but our population is so small that we have not sufficient labor to enable us to gather the rich fruits of the earth, and our Government, with a lazy yawn, wonders why we trouble ourselves with "trifles." Our mineral lands embrace thousands of square miles of our territory; we would invite men of capital and energy to explore and develop them. With this object we frame laws, and in suppliant tones ask our Government to pass them; but, alas! our Government has no necessity for mines. They can take money out of the Treasury with so much ease that they cannot imagine why people go to mine for it. They remind us of Queen Caroline, who, on being told that the people were starving for want of bread, asked why they did'nt eat pie-crust? Such an absurdity 150 years ago was looked upon as a brilliant joke on the part of Her Majesty of those days. Now we are a little more matter-of-fact, and would take such fun with a very bad grace. We begin to think that the wit of men in high places is no better than our own; and that hence we have no occasion to pay for it. Our practical minds lead us to improve our lots and make bargains that leave a profit; we have an ample field for such faculties on this Island. We are surrounded by an industrious and enterprising people who, endeavoring to accomplish the same objects, are creating all the appliances to attract commerce; in fostering shipbuilding, in stimulating the exploration and cultivation of their country; in the formation of railways, and by these means are bringing together large and populous communities. These people come to see us and desire to buy our goods; they have no objection to pay a profit to our dealers, but they absolutely decline to pay taxes to our Government; they have one of their own that takes all they can spare in that way. Now, there is no reason why we should expect them to contribute to the support of our notions of Government, and we agree with them; but our intelligent Executive prefers that our goods should lie on our shelves, our people become impoverished, and our neighbors go elsewhere, rather than adapt our Customs laws to the exigencies of the case. Perhaps they wish to avoid the turmoil and din of vulgar trade in their Island of Calypso. No wonder that so many seek other Penelopes elsewhere. To insure reform and prosperity, we must have a complete and radical change, and in the form of Government and its administrators.

WALTHAM WATCHES.

The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these timekeepers.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches, COMBINING THE BEST AND LATEST IMPROVEMENT, and at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent more for their watches than is necessary.

For sale by all dealers.

THE BRITISH COLONIST.

Thursday Morning, April 8, 1869.

DIED.

In Victoria, on the 5th inst., William Weir, son of R. Weir, of Gardenbush, aged 36.

The funeral will take place on Thursday, 8th inst, at 2 o'clock. Friends and acquaintances will assemble at St. Andrew's Church.

At New Westminster, April 7th, Fredrick Irving, infant son of Robert Dickinson, Esq., aged 1 year and 4 months.

The Lecture on British India.

The Bishop commenced by showing the great influence India had exercised in the world for at least 4000 years. Egypt, Persia, Arabia, Alexandria and other countries and cities owed largely to India in their magnificent days. Pliny, who flourished A.D. 100, complained in the letter still extant that such was the taste for eastern luxuries that India had emptied Rome of its gold, a circumstance which has often been confirmed in modern times by the discovery in India of gold coins of the Roman Emperors. Several nations in turn rose to wealth and eminence as each possessed the readiest transit to the coveted land, the possession of which by England now, has much to do with her pre-eminence in commerce.

Having described the wonderful fertility produced in India by her noble rivers, and especially the Ganges, and remarked upon the modifying effects of sea and high land in respect of climate, the lecturer proceeded to notice origin, language, religion and locality of the different races. The population under British rule numbers 180 millions, of whom 150 millions are Hindoos, who entered India from the West about 2300 years before Christ, and brought with them the Sanscrit language; 20 millions are Mahometan, who began to invade India about the year 1000 A. D., leaving 10 millions for the Sikhs and Aborigines. Ancient India was then described, its exquisitely sculptured rock temples and the contests of Brahmism and Budhism. The rise of the Mogul Empire was next narrated, the invasions of Genghis Khan, Tamerlane and Akbar, the seige of Aurungzebe, the Great Mogul, their cruelties, their enormous wealth and magnificence were depicted in order, and then their decline, until General Lake, in 1803, found the Emperor a mere puppet of the Mahrattas, who had put out his eyes. He was allowed to remain in Delhi in pensioned splendor, a vassal of the British. The history of the Mahrattas, whose kings sprung from Golconda, led to an allusion to the Koh-i-noor Diamond, the story of which was told, and how it passed from one great chief to another until at length it became the property of the Queen of England, the token of supremacy and the emblem of that light and civilization which should be dispensed by Britain in the world. Perhaps the most interesting portion of the lecture was the account of the rise of British power in India—How a few British merchants humbly asked permission of the Great Mogul to trade; how they obtained little plots of land around their factories; how they were called in to mediate between conflicting chiefs; and how at length they were attacked by the French, and in self-defence were compelled to enter into war. The Battle of Plassy, in 1756, and its important results, were reviewed; the Tragedy of the Black Hole was not omitted, and this portion of the lecture concluded with the trial of Warren Hastings and a summary of the annexations that had gradually and unsought for become the possessions of England. The great Eastern armies of England which of all sorts numbered 750,000 men, the origin of the meeting and the fearful massacre of two hundred English ladies and children at Cawnpore were described in order. The superstitious rites of the people were next portrayed, and the responsibility of England to communicate her enlightenment as the only way of elevating, purifying and attaching to their then rulers this vast population, were mentioned to show the mysterious hand of Providence in this acquisition of India. Such as these: the great dynasties fell to pieces of themselves, and not through our invasion; a handful of British scattered and isolated could sway over 180 millions; why did not the French, who were before us, and at one time very powerful, continue in their supremacy? Why did not the native armies of Bombay and Madras unite as well as that of Bengal? Why did not the people of Bengal join their friends of the army against us? One answer would refute: there was a higher Power at work ordering events, not as man might calculate a design, but as He willed, and His will is that India should be Britain's trust. The lecture concluded by some interesting statistics, showing the enormous progress India has made since the mutiny, and how she has become England's greatest customer as well as a chief source of her raw material in cotton and fibre, and capable of immense development yet. The Bishop closed the lecture with the following remarks: "Such is this wonderful country; and may we not look forward to a day not far distant when this Colony may directly share in the advantages of India? The steady progress of England through the peace, order and freedom of her wide-spread empire, communicates the elements of prosperity to every land upon which the flag of dominion floats, and should fill the heart of every loyal subject with a just pride, a love of his country and with thankfulness to God. Many circumstances seem to indicate that the highway to the East must pass across this continent. Our enterprising neighbors may have the start of us just now, but we shall surely overtake them, and in due time British America shall have its full share of Eastern traffic which in all ages has built up an exceeding prosperity in every land through which it has successively passed. But let us own that the true foundation, the real necessity for any country, is the blessing of God upon it, called down by the virtuous lives and devout aspirations of the people; and the best prospect of the permanent possession of India is our mindfulness as a nation of our allegiance to the King of Kings, who putteth down one and setteth up another; and our determination to use this trust as a great opportunity of increasing the happiness of mankind by communicating the blessings of churches, light and civilization.

> 'Large, England, is the debt
> Thou owest to heathendom—
> To India most of all, where Providence,
> Giving thee thy dominion there in heart,
> Upholds its baseless strength.'

The lecture was listened to with evident interest throughout, and illustrated by some magnificent views, of which we may select as more striking than others—The Source of the Ganges, in the Himalayas; the great Rock Temple of Ellora; the ruins of Ancient Delhi, Cawnpore and Calcutta.

The ship Shooting Star, 9 days from Nanaimo, arrived at San Francisco on the 30th March.

City Council.

TUESDAY, April 6th, 1869.

The Council met at 7½ o'clock, His Worship the Mayor in the Chair, and present—Messrs. Alsopp, Russell, McKay and Gerow.

An account from H. F. Heisterman, one month's rent, was referred to Finance Committee.

Communication from the Secretary of the Spring Ridge Water Works Company, asking permission to make excavations for the purpose of laying pipes to conduct the water into Southgate's new building; granted.

Communication from Kinsman & Styles, asking permission to blast the rock in the foundation of the same building. Granted.

Accounts from Drake, Jackson & Aikman, $250, for legal services, was referred to Finance Committee to report.

Account from Michael Wells, for $121, for cartage in connection with street repairs, was referred to Street Committee for examination.

Accounts from Arthur Strong, $18, for carting mud from public cistern, and $12 for street repairs, were referred to Finance Committee for payment.

The Council passed a resolution that the clark be instructed to prepare the necessary assessment list under the provisions of the Road Ordinance, 1869, and that the sum of 10 per cent. be allowed upon the amount of collections under the said Ordinance, including the preparation of the said assessment-list.

It was resolved that the Council meet at 12 o'clock on Saturdays, and every Tuesday evening, until the By-laws now being drafted are finally passed.

In consequence of the absence of the Chairman of the Street Committee, action with regard to the tender for the improvement of Pandora street was deferred.

The Council then adjourned till Saturday next, at 12 o'clock.

STEALING A WATCH.—A young man named George Browaley was arrested on Tuesday night upon a charge of stealing a gold watch and chain from Mr. George Coggin, of Puget Sound, a passenger by the steamer Eliza Anderson on her last trip to this port. After committing the alleged offence, the accused proceeded to the Alhambra Saloon and pledged the watch and chain as security for a wager of $20 with a bystander, where it was recovered. In the Police Court yesterday Mr. Bishop appeared for the prosecution, and Mr. Robertson for the defence. The plea set up for the defence was that the accused purchased the watch from a person in good faith; Mr. Robertson, however, said his client expressed a willingness to give up the watch, and had made no attempt at concealment or effort to escape. The Magistrate said that the watch having been given up, there were circumstances connected with the case which would prevent the retention of the watch, without which the case before the higher Court would be incomplete. The Court, therefore, would liberate Brownley upon his own recognizance to appear for further examination in three days. In the meantime, Brownley is expected to rid the country of his presence; failing to do so, he will be invited to "do the State some service" in the chain-gang.

AUTHENTIC FROM WHITE PINE.—Mr. C. Strouss, of Cariboo, while in California, a few days ago, seized upon the occasion to pay a visit to the White Pine country. He found some 15,000 persons assembled there, among whom he recognized and conversed with several British Columbians. Frank Way was driving a six-mule team; W. Culverwell is a stage-driver; Mayer Oppenheimer is merchandizing at Elko and Treasure City; P. M. Backus, is at Elko, owns any number of "feet" and town-lots; W. Ballou (pioneer Fraser River Expressman), and Frank Laumeister, are at Elko and largely interested in the currency of the country ("feet"); Simon Reinhart is at Elko. The country is described as barren and desolate; the water is alkali; wood scarce and provisions high. A few good claims have been discovered; but the large majority of the "feet" have no existence save in the vivid imagination of parties who wish to sell.

ODD FELLOWS' BANNER.—We were yesterday shown, in Mr. Crowther's paint shop, a beautiful banner which has just been painted for Victoria Lodge, No. 1, I. O. of O. F., of this city. The obverse of the banner is scarlet; at the top is the all-seeing eye; below appear the title of the Lodge with the date of organization—March 10, 1864—and "F., L., T.," (Friendship, Love and Truth) Upon the reverse—which is white—a dove bearing the olive-branch and flying through space, while the rays of the sun shine through dark clouds. Beneath appear the words—"Presented by the daughters of Rebekah, April 26, 1869;"—an open hand with a heart, cornucopias, etc. The painting has been executed and in a most workmanlike manner, and the banner is alike creditable to the donors, the recipients and the artist.

Our friend and neighbor, Piper, has been on the "elongating principle" and has been "advancing backwards" with his establishment. He has added considerably to the space lately occupied by the culinary department, and will in a short time be prepared to furnish all his friends with dinners such as only Piper can provide. Success to him. May his chops never be less!

BURRARD INLET ROAD.—The work of repairing this road will be commenced early next week. Mr. Thos. Spence goes up tomorrow to supervise the much-needed improvement.

THE INTERNATIONAL CRICKET MATCH.—The Active to-day will bear away the eleven "good men and true" who go to contest, with eleven of California's sons, for the championship of the Pacific in the English national game of Cricket. Our Eleven have been tried on many a well-contested field, and though always opposed by skilful hands, have seldom failed in proving victorious. Though in the forthcoming match they will be opposed by the crack players of the Golden State, may we not with reason expect that victory will again rest with our chosen Eleven? The Victoria Eleven are Messrs. Pooley, Richardson, Tye, Guerra, J. Wilson, Howard, Barnett, Walker, Drake, Hemmingway and Ball. J. L. Fisher will act as umpire. The Captain and scorer will be elected after leaving this port. The California Eleven are D. W. Davies, W. G. Salter, D. B. Chisholm, W. J. Macdonald, T. Peel, J. M. Fisher, Whittaker, F. O. Gormand, H. R. Varden, R. W. Coler, Luke; umpire, Groom.

A DREADFUL AFFAIR.—The burning of the works connected with several of the principal Washoe mines, yesterday, is a serious and dreadful affair. The loss of life appears to have been awful. The extent of the damage is incalculable. With all the galleries and supports burned away, the mines are almost valueless.

THE STABBING CASE.—Toby, the Cowichan Indian accused of stabbing Mr. Blackwear on Sunday night, was brought up for further examination yesterday. The injured person identified the prisoner and testified to the circumstances attending the stabbing, which do not differ from the published accounts. Toby was remanded for two days.

THE MAINLAND.—A telegram from New Westminster yesterday morning announced the arrival there of Mr. U. Nelson and a party from the Upper Country with a mail, &c., who requested the use of the Leviathan to continue on to this city. The request was complied with and she arrived here at 12 o'clock with 10 passengers.

THE ORIFLAMME.—A special telegram to Mr. R. Brodrick, agent, states that the stmr Oriflamme will sail next Saturday from San Francisco for Portland, Victoria, Port Townsend, Steilacoom and Olympia. Mr Holladay will join her at Portland.

BURGLARY.—Glover's Match Factory was entered by burglars night before last and all the tools stolen. It would be difficult to match the meanness that would deprive a worthy man of the wherewithal to earn his livelihood.

THE members of Victoria Lodge No. 1, Independent Order of Good Templars, are notified to assemble at the Lodge Room, Langley street, at 2½ p. m. to-day, to attend the funeral of Henry Cole, a deceased brother.

LEECH RIVER.—An arrival from Leech River yesterday states that the hydraulic company's works are completed, and the men only await the arrival of hose to commence piping.

VICE-REGAL VISIT.—His Excellency the Governor yesterday visited the flagship and was received with the customary honors.

THE steamer Fly proceeded to Burrard Inlet yesterday, having in tow Moody & Co.'s scow Matilda.

THE U. S. S. Saginaw will sail at an early hour this morning for San Francisco.

By Electric Telegraph.

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DISPATCHES

Eastern States.

WASHINGTON, April 6.—Chas. Wilder (colored) is confirmed as post-master for Columbia, S. C. This is the first confirmation of a negro. Wilder was formerly a slave.

CHICAGO, April 6.—Among the appointments to-day are Thomas Young, Marshal of the district of Oregon.

A Republican special says the House Committee on Foreign Affairs have agreed to report a resolution authorizing the President to open negotiations for the annexation of St. Domingo.

The President has notified Minister Hale and Secretary of Legation Perry, at Madrid, that their resignations will be accepted and their successors will be immediately appointed. House Naval Committee have agreed to report a bill providing that no reduction of wages of employes of the Government navy yard be made in consequence of the reduction of the hours of labor.

WASHINGTON, April 6.—In the House the Census Bill was taken up; Garfield explained its provisions: An amendment was adopted making the bill referring to the present census to be superceded by a bill to be reported at next session. After receiving several other amendments, the house then went into Committee of the Whole on the Indian appropriation bill. Davis said the Committee had agreed to recommend an appropriation of two million to be placed in the hands of the President with authority to use it according to his descretion and judgment, to maintain peace and promote the civilisation of the Indians; adopted. Butler insisted that the fourteenth amendment made Indians civilized, consequently no valid treaties could be made with them.

Ramsey in the Senate presented a communication from the Post Master General in relation to the cheap rates of postage. Sumner said there was a movement afloat in regard to securing penny postage. He favored the Government adopting a two cent ocean postage.

The bill to aid the construction of a Branch Central Pacific Railroad to Portland, Oregon, was discussed. Sherman's amendment was modified so as to leave the President to fix the point of junction according to the legal rights of the respect ve roads, and adopted—53 to 6.

Davis offered an amendment, which was adopted, directing the Attorney General to first, investigate whether the charter and franchise of the Union Pacific road and branches have not been forfeited, and if so to institute the necessary legal proceedings; second, to investigate whether the said company have made illegal dividends on stock, and if so to execute the necessary proceedings; third, to investigate whether any of the directors or employes of said company have violated any penal law, and if so to institute the proper criminal proceedings.

HARTFORD, April 6th.—The Senate will be composed of 14 Republicans and 7 Democrats. The Republicans have about twenty majority in the House.

NEW HAVEN, April 6.—Complete returns give Jewell 811 majority for Governor. The Republican majority in the Legislature is 41 on a joint ballot.

Europe.

MADRID, March 6.—Fears are entertained that the Carlists will make another attempt at a general rising. The Government is taking every precaution to prevent it.

It is stated that the ex-King Ferdinand persistently declines the crown of Spain.

LONDON, April 6.—The subject of the appointment of a successor to Reverdy Johnson is receiving considerable attention from the Press of this country.

VIRGINIA CITY, April 7.—Fire was discovered in the Yellow Jacket, Crown Point and Kentucky mines, Gold Hill, early this morning, and is now raging. Seventeen men are thought to be in the mines. Five dead bodies have been brought to the surface. Great fears are entertained that the men remaining below have all perished, the smoke and gas being so dense and suffocating as to render it impossible to get to their aid or operate to extinguish the fire.

VIRGINIA CITY, April 7.—The excitement is so great that it is difficult to get full and exact particulars of the Gold Hill fire. It originated from a miner's candle. But little can be done. The dense smoke filling all the galleries and passages on the level where the fire originated and those above, prevented any direct efforts being made to extinguish the fire. Four more bodies were found dead in the Yellow Jacket. There are 23 men in the Crown Point below the fire supposed to be dead. From ten to twelve in the Kentucky are also all supposed to be dead. Efforts are being made to get them out through both tunnels and shafts, but the smoke is so dense that men cannot live to go down. Notes and signals sent down by the car failed to return any response.

CURES AND COMFORT FOR THE BED-RIDDEN.

—BY—

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structure. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe-

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

his class of diseases may be cured by well rubbing th Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency nd safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act opowerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

eware of this dangerous and stealthy complain which frequently creepsupon us by slightsqueamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked to in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body nd mind, in se delicacy concealing them from the knowdge of the most intimate friends. Persons suffer for ears from Piles and similar complaints when they might se Holloway's Ointment with instant relief, and effect heir own cure without the annoyance of explaining their ases to anyone

Disorders of the Kidneys, Stone and Grave'l,

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of . ne back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effec a to rough cure.

Both the Ointment and Pills should be used in the following cases:—

EXTRAORDINARY CURE OF A COUGH.

The following letter has been received from WILLIAM BOARDS, Esq., an extensive agriculturist and land agent, residing at Edmonton, Middlesex:—

"Nightingale Hall, Edmonton.

"Dear Sir,—I have recently suffered much from a most violent cough, proceeding from a tickling in my chest, which no remedy, out of many I resorted to, could allay. My head was constantly aching, and my whole frame entirely shaken Having seen the good effects of your Balsam of Aniseed in several members of my family, I purchased a small bottle, and, when going to bed at night, took a teaspoonful in two tablespoonfuls of water, just warm. The effect was immediate; it arrested the tickling in my chest, I slept well and arose perfectly restored in the morning, with the exception of debility, arising from fatigue by incessant coughing for some days previous. My cough entirely left me, and has never returned Having since heard of a lady in the neighborhood who for a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough, was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its efficacy.

"I am, dear Sir, yours very truly,

"WM. BOARDS.

"To Mr. Thos. Powell.

POWELL'S BALSAM OF ANISEED,

For Coughs, Colds, Influenza, Shortness of Breath, Asthma, Bronchitis, and for all affections of the Lungs, this old established remedy will be found invaluable.

The large sales and increased demand for this excellent and elegant preparation, which has followed its introduction into Australia, New Zealand and nearly all the British Colonies, has induced the Proprietor to still further extend the beneficial results of its use; and he begs to announce that he is now introducing its sale into Victoria, B. C., and has appointed Messrs Millard and Beedy, Wharf Street, Victoria, Wholesale Agents, through whom Chemists and Storekeepers can obtain their supply.

The Price is within the means of all classes.

Established 1824.

Prepared and Sold by THOMAS POWELL, 16, Blackfriars Road, London. Sold in bottles, by all Chemists and Patent Medicine Vendors throughout the World.

IMPORTANT CAUTION.—Observe that the Words, "THOMAS POWELL, Blackfriars Road London," are engraved on the Government Stamp, affixed over the top of each Bottle, without which, none can be genuine.

TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR Commercial, San Francisco, Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis, in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield; St. Luke's, Old street; St. Mary's, Camb. Place, Pad.; Lock, Harrow Road; University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, Whitechapel Road; Royal Free, Gray's Inn Road; King's College, Portugal street

Dr. Gibbon has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of those horrible, life-destroying maladies—see that they are cared for, and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Semina Emission, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz.: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, forred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use By enclosing $15 in currency or $10 in coin, in a registered letter through the Post office or through Wells Fargo & Co., a package of medicine will be forwarded by express to any part of the Pacific Coast.

Address for J. F. Gibbon, 616 Kearney street, corner Commercial, San Francisco.—Post office box 252.

Remember to put BOX 252 on the letter.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil and has been found most beneficial in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atrophy, and Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in **Diseases of the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors and Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of **Phthisis** and other **Diseases of the Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—**Be sure to see that the signature of Grimault & Co,** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion,
Wind in the Stomach and Bowels,
Eructation,
Jaundice, and
Complaints of the Liver & Loins

NERVOUS HEADACHE
NEURALGIA,
DIARRHŒA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of

Cholera, as it is a preventive and a cure in cases of Diarrhœa.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris by the celebrated Dr Ricard, and found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent, and capsules in more chronic cases.

Ayer's CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well-known public persons:

From a Forwarding Merchant of St. Louis, Feb 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on that effectual cathartic in my daily contest with disease, and believing, as I do, that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst *headache* anybody can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE. *Clerk of Steamer Clarion.*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.* JOHN G. MEACHAM, M. D

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse the stomach and expel worms.* They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episcopal Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains,* which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury which although a valuable remedy in skilful hands is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.
